**German**          (Proficient)

**Chinese**          (Beginner)

## PROFESSIONAL EXPERIENCE

**01**

### Front-End Web Developer
Arbithub

Chicago, USA
01.2024 - Present

- Tasked with major migration initiatives, successfully upgraded core technologies such as React, React Router DOM, Redux, Tailwind CSS, ESLint, and Prettier, ensuring our codebase remained modern and efficient. Spearheaded the creation and development of an advanced search page, equipping users with a dynamic and customizable filtering experience.

### Full Stack Developer Trainee
LightUp Digital

Berlin, Germany
10.2023 - 01.2024

- Utilizing MongoDB as a database for data storage and retrieval. Developing microservices with NestJs, providing a scalable and efficient solution. Creating user-friendly and responsive front-end interfaces with React. Implementing authentication and security features to protect user data.

### Integrated Operation Control Officer
Turkish Airlines

Istanbul, Turkiye
03.2019 - 05.2020

- Real-time operational control, teamwork in the airline industry, and managing multiple tasks efficiently. Directly transferable skills to web development, where coordination and fast-paced project management are essential.

## PROJECTS

**02**

### Memoria
Social media web app to connect with loved ones. Create private groups, enjoy posts enhanced by OpenAI and make accessibility a priority with story narration.
- Javascript, Cloudinary, Bcrypt, Axios, Mongoose, Express.js, Tailwind, OpenAI, Node.js, MongoDB, React.js

### PlantIQ
Go-to website for intelligent plant care and identification. Harnesses the power of Image Recognition AI to recognize your plants and offers expert advice on their well-being through the responses of the GPT API.
- Javascript, Handlebars, Cloudinary, Bcrypt, Axios, Node.js, Express.js, Tailwind, OpenAI, Plantnet and Trefle.

### React Movie App
Structured the app with components for a clean and organized design. Created custom hooks for efficient data fetching. Centralized local state management using useReducer when it's suitable. Test the app with Cypress to ensure its functionality and reliability.
- HTML, CSS, Typescript, Bootstrap, React.js, React Router Dom, Cypress, Supabase, Firebase Auth

### Hotel Middle Earth
Designed to challenge your decision-making skills, focus and reflexes while immersing you in the fantasy world of Middle Earth.
- HTML, CSS, Javascript, OOP
